

One Point One Day in the City of Avondale

September 28, 2022

Whereas, OnePointOne started as the journey of two brothers on a mission to change the world by providing access to nutrient-dense greens that have the power to nourish and heal humanity; and

Whereas, OnePointOne seeks to make us fundamentally rethink how plants are grown, utilized and optimized, via a one-of-a-kind, fully automated vertical farming system that uses a combination of aeroponics, automation, and AI and robotics; and

Whereas, the City of Avondale, which has its roots in agriculture dating back to the turn of the 20th century, is eager to embrace innovation and advancements in farming technology; and

Whereas, OnePointOne selected Avondale as the headquarters for its 80,000 square-foot facility, along with a 12,000 square-foot indoor farm, Willo Farms, which allows members to receive produce straight to their door with their signature Harvest Boxes, putting fresh produce directly in the hands of our community; and

Whereas, this new headquarters will also provide the community an opportunity to learn about vertical farming at the most cutting-edge facility in the world as it produces fresh, sustainable produce; and

Whereas, the City of Avondale, which proudly partners with local businesses and companies on a Green Business program, commends OnePointOne for its dedication to environmental preservation and sustainability; and

Whereas, City of Avondale is proud to celebrate the ribbon cutting of OnePointOne’s headquarters in Avondale.

NOW THEREFORE, I, Kenneth Weise, by virtue of the authority vested in me as Mayor of the City of Avondale, Arizona, do hereby proclaim September 28, 2022 as OnePointOne Day in Avondale and encourage everyone to congratulate OnePointOne and Willo Farms on the opening of this new facility.

Mayor
